

## **Creative Interventions - About Organisation**

Creative Interventions is an arts and health project in the east end of Glasgow, and we offer mainly visual arts - kind of a nice mix of things depending on what seems right for the client group and the artists that are working with them.

We employ artists that are very passionate and serious about their own work, and they share that enthusiasm with people, and they expect people to be able to do things.

It's taking people seriously enough to expect that they can achieve something, and it's sometimes more than what they think they can achieve themselves.

Taking risks in making art extends laterally throughout their lives, and they feel braver about taking risks in their lives outside of the art group.

Getting to know people's stories - it's very moving in getting to know people and their stories and it's lovely seeing people overcome things.
