

Horsecross Arts - About Organisation

We are Horsecross community, we offer drama and music opportunities on community based projects throughout Perth & Kinross.

An overview of the things that Horsecross community does would include weekly music and drama workshops for adults with learning difficulties. We also do community singing work - we're not scared to take chances, and I think it's really important that work continues to be innovative and to create legacies in communities.

We really want to listen and respond to what communities want, and what they need as well. It's no use us dreaming up a terribly elaborate project if it's not what the community wants.

I just love the way that we can build people's confidence and people get to try things they've *never* done before. And it becomes liberating and empowering, and that's something I enjoy being part of - and I find that having the drama techniques make me feel empowered to help make change for other people.
